

August 12th, 2007

Today we started uploading the sources to SVN with the aim to configure a common build system. As we do not yet have an own SVN-Server yet, we are using the SourceForge Server. You can find the sources at <https://sourceforge.net/projects/osfree/>. At the moment this is NOT fully functional, not even all parts of the sources have been uploaded. Still feel free to improve osFree

[development, site](#)
